LOCAL NEWS

A very pleasant evening was spent on Friday the 17th, at the home of Mr and Mrs H. W. Lee, of Carbon, when a kitchen shower and surprise party was accorded them by their neighbours.

The time was spent in dancing, the music being supplied by Messrs Hammond and Lee, violinists; after which refreshments were served.

Those present were Mr and Mrs Bell, Mr and Mrs Clarke, Mr and Mrs Taylor, Mr and Mrs Braden, Mr and Mrs Hammond, Mr and Mrs Carl Smith, Mr and Mrs Holstad and daughter Ella, Mr and Mrs Van Loon and son Robert, Mrs Spry, Mrs Anderson and Messrs Wright, N. McKinley, L. McKinley, Sidney Johnston, K. Anderson and Bill Anderson.

Mrs H. M. Thorburn had a relapse on Friday, and was taken to the Hospital in Geo. McNeil's car on Friday afternoon, accompanied by Nurse Watson and Harry Thorburn. Mrs Thorburn expect to go under an operation in a few days.

A serious accident happened on Tuesday morning when a farmer from Strathmore, after passing at 4 o'clock in the morning at Carbon with a big tractor, came to a bed coulee north of town, on the correction line, this side of Three Hills, tumbled over the ravine and was killed.

SPORT'S DAY

The following is a list of Prize Winners on Sports Day, last week. The short time at our disposal last week for making up this paper, obliged us to hold this over till now.

Men's 100 yd. Race.

1st. J. E. Gibson. 2nd. P. Greenwood.

Ladies' 50 yd. Race.

1st. Miss J. Gattine. 2nd. Miss R. Gattine.

Boys under 12, 50 yds.

1st. G. Schell. 2nd. S. Hay.

Men's Potato Race.

1st. R. Raethke. 2nd. J. Ohlhauser. 3rd. A. Birtsch.

Ladies' Potato Race.

1st. Miss A. Ohlhauser. 2nd. Miss R. Gattine.

Girls' Potato Race, under 16.

1st. Elsie Sailer. 2nd. Martha Neher.

Men's High Jump.

1st. R. Raethke. 2nd. T. Launder and W. H. Loeper, divided.

Men's Broad Jump.

1st. D. H. Smith. 2nd. T. Launder.

Fat Man's Race.

1st. W. J. Talbot. 2nd. J. Raethke.

Made in Canada

CONTAINS NO ALUM

Man's Greatest Asset

The universal membership enrolment campaign recently conducted by the Red Cross Society throughout Canada had for its object the arousing of the people to the vital need of greater personal interest in the matter of health. It was not a campaign to raise money, but a Dominion-wide and well organized effort to secure an active and intelligent public interest in measures for the prevention of disease, it being realized that an ounce of prevention is worth many pounds of cure. The average man, woman and child gives little heed to their physical well-being until they are afflicted with some ailment, and then there is a hurry-up call for a doctor.

That there is need for a great awakening on the part of the public in regard to matters of personal hygiene and public health was demonstrated by the enforced medical examination of men for military services during the war years, but, startling as were the disclosures from those examinations, even more staggering are some recent figures and opinion contained in an article in The Journal of Health and Sanitation, written by Dr. J. H. Kellogg, superintendent of the famous Battle Creek Sanitarium.

Races of men have sometimes died out and utterly disappeared and Dr. Kellogg is of the opinion that this may happen to the whole human family if we continue to live under what he considers present unnatural conditions. Man, says Dr. Kellogg, is a very old-fashioned animal trying to live in a new-fangled way, in a manner that no animal ever before adventured, and so unnatural and so ill-adapted to his constitution and his requirements as to render his ultimate undoing inevitable. Man is by nature an open-air dweller. But the business and professional men, incarcerated behind the doors of their offices, with their assistants, die years before their time, and, on the average, twenty years sooner than the farmer whose vacation keeps him in the open.

Present-day habits and methods of living are held accountable for the physical deterioration of the race, and for the prevalence of diseases which are carrying off people by the million. According to Dr. Kellogg, the United States loses from its population of 100,000,000 by death 1,500,000 people every year, while 3,000,000 people are sick all the time. In other words, one-fifth of the population are inefficient or lost. He estimates that an average of seven days are lost from labor by sickness every year. Tuberculosis is gaining ground, and kills one out of every ten of the population. Cancer kills one in twenty. Other maladies are rapidly gaining ground. In England and Wales the insane are increasing twice as fast as the sane, and in France ten times as fast. Coupled with these alarming symptoms, there is the serious fact that the birth rate in nearly all civilized countries is rapidly declining.

Dr. MacNeill, superintendent of the Mental Hospital at Battleford, Sask., made the statement recently in a public address at Regina that at the present rate of increase of mentally deficient people there would not be enough mentally efficient people to look after them fifty years hence.

In support of his contention that present habits and methods of living are responsible for existing conditions, Dr. Kellogg draws attention to one of the interesting lessons from the war, namely, the notable lowering of the death rate in several countries. In Denmark the death rate fell 35 per cent., due in the opinion of Dr. Hindhede, the Danish food controller, to simpler habits of living, and especially the low-protein diet and the use of coarse bread. In Germany, too, diabetes has practically disappeared from the same cause, and gout, formerly very common, is now unknown.

Good health is the greatest asset any person can possess. Wealth is of little value to a man if he does not possess good health so that he may enjoy it. Without health no one can get much pleasure out of life. Lacking health no person can be wholly efficient. Ill-health is waste. Yet the best medical experts agree that, by taking proper precautions there is little reason for sickness, and that many diseases which now number their victims by the millions could be readily stamped out.

Health studies and health conditions must be given first place and foremost attention in our public schools. People must be made to understand that soundness of body is fundamentally essential in business, art, literature, politics and religion, as well as in warfare, sports and industry. By creating an enthusiasm for health promotion and physical perfection a long step forward will be taken towards the realization of that better state for all people towards which the world is blindly groping. A popular, nationwide Crusade for Good Health is imperative. Governments can do much, but the main essential is an aroused and active interest on the part of every individual citizen. The promotion of health is the only real, lasting and basic national policy for any country.

Friend or Foe?

Many people find that tea and coffee are foes to their health, but that **Instant Postum is a friendly table drink.**

This pure cereal beverage is rich in aroma and flavor—fully satisfying—and contains no element of harm for nerves or digestion.

"There's a Reason" for POSTUM

Japs Plan To Raft Timber From B. C.

Think Davis Structure Will Stand Trans-Pacific Passage

A Japanese firm proposes to make another attempt to raft timber from British Columbia to Japan. They believe that the Davis raft structure, of which the outside rows of logs are laced with cable, can be made to stand the trans-Pacific passage. The first raft will leave this coast about August. It will have a super-structure of piled logs, strongly laced. Hitherto rafted logs have not withstood long sea journeys, except one which was taken from San Francisco to China about twenty years ago. Favored by calm seas the raft was safely landed. The Chinese, however, unused to big logs, took ten years to cut up this boom, using long, hand rip saws to make the boards.

One of the most effective vermifuges on the market is Miller's Worm Powders. They will not only clear the stomach and bowels of worms, but will prove a very considerable medicine for children in regulating the infantile system and maintaining it in a healthy condition. There is nothing in their composition that will injure the most delicate stomach when directions are followed, and they can be given to children in the full assurance that they will utterly destroy all worms.

Canada's Huge Wheat Area

Prairie Provinces Have More Than Ninety Per Cent. of the Wheat Acreage.

The total area sown to wheat this season in the Dominion of Canada is estimated at 18,654,100 acres, an increase of half a million acres over the 1920 area, constituting a new record for this grain. Seven hundred and nine thousand one hundred acres of this is seeded to fall wheat, leaving 17,945,000 to be sown this spring.

The prairie provinces have more than ninety per cent. of the Dominion's wheat acreage, with 17,418,900 acres. This shows an increase of 577,000 acres over the previous year.

No need to suffer with corns, or to run the risk of paring them. Remove them surely and painlessly with Holloway's Corn Remover.

Crossing Stock With An Automobile.

If a motorist runs down a pig it is sure to be a blooded Berkshire, remarks the Boston correspondent. Every chicken slaughtered is a pedigree bird worth \$40 to \$50. A yellow barnyard cur is a wire-haired fox terrier. A calf is always of Alderney or Guernsey blood—in fact, nothing seems to improve stock like crossing it with an automobile.

Fiction is less strange than the truth because we miss it oftener.

WOULD NOT BE WITHOUT BABY'S OWN TABLETS

Mrs. W. Beesley, Mille Roche, Ont., writes "I have used Baby's Own Tablets for the past eight months and would not be without them. I used them for indigestion and teething and my baby is cutting his teeth without any trouble whatever. I can highly recommend the Tablets to other mothers." What Mrs. Beesley says thousands of other mothers say. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach, thus driving out constipation and indigestion and making teething easy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

"Equinoctial" a Myth.

That the equinoctial storm is a myth is demonstrated by an astute co-operative observer of the United States Weather Bureau, says the Scientific American. This popular belief is probably the result of teaching handed down from father to son. Old weather saws are very hard to eliminate.

Manitoba Free Press Crop Report.

The Manitoba Free Press crop report, published June 7th, states that crop conditions are, if anything, more favorable than at May 17th. "It would be difficult to think of a more generally satisfactory report of conditions spread over so wide a territory," says the Free Press.

New Camera's Great Range

Can Photograph From Height Where Airplane Is Invisible.

Scientists of the United States Bureau of Standards revealed the details of a new photographic process but recently perfected. The discovery is expected to be of tremendous military value to the air service, as well as to have incalculable scientific and commercial application. It will give to the eye of the camera power which nature has never endowed to the human eye, for it will be possible for airplanes to make photographs from heights so great that the planes themselves will be invisible from the earth, and to penetrate haze that the human eye cannot pierce.

NOTICE TO THE PUBLIC

It has been reported to us by Mr Williams, Inspector of the Health Department of Edmonton, that the Streets and Lanes within the Village of Carbon in general are in very bad condition.

It is strictly prohibited for any person or persons to deposit any refuse of any description or manure on any Street or other public highway. The present accumulation must be cleaned up immediately and any person or persons found guilty of violating this order hereafter is liable to prosecution according to law.

R. SHIELDS,
 Reeve.

ALEX. REID,
 Sec.-Treasurer.

NOTICE TO THE PUBLIC

The Sanitary Inspector has just made an Official visit and reports the Village in a very unsanitary condition owing to carelessness of Business Places and Householders, throwing refuse all over the Lanes and Public Places, and allowing refuse to gather around their back yards, the Village Council have decided to clean up all unoccupied places, but expect the residents will do likewise and clean up also. The Inspector has very leniently dealt with the public during his inspection here, who wishes to give every one a chance to clean up as requested by the Council, but intends to make another visit in the near future, and all parties found guilty of neglect in not keeping their premises in a clean state hereafter will be prosecuted according to law.

R. SHIELDS,
 Reeve.

ALEX. REID,
 Sec.-Treasurer.

ETHER THAT MAKES PEOPLE TELL THE TRUTH

Dr James Cotton, of Toronto, has discovered a certain kind of ether that makes people tell the truth. The ether is called "ethylene ether" and has been employed in many cases for demonstration.

Once before, the Dental Society of New York and lately before the Ontario Dental Association. The composition of this ether is kept secret, says Dr Cotton, as its revelation might cause more trouble than good. We don't doubt at all that it would bring on a 'little change,' if people were put in a position that they could not tell a falsehood.

Imagine the Clerk of the Court giving every witness before he enters into the witness box, a drop of ethylene ether, and the witness telling the truth, the whole truth and nothing but the truth.

What a change!

Imagine a man coming home at midnight, and his wife waiting for him with a spoonfull of ethylene ether. Oh, Boy!

Imagine our politicians stepping on the platform and instead of the traditional little sip in the water glass are offered a drop of ethylene ether. How interesting!

And on the floor in the House of Parliament. Wouldn't be great if they started to tell the truth!

And the newspaper editors, imagine them taking a dose before they take up the pen or pencil. Boy, oh boy, what a revolution it would make.

We don't want to go into the details about the drummers, a drop of ether would put them out of business.

And our Tattle Tales in general. They would lose, before many days the faculty of speech if they were put in a position where they could tell nothing but the truth.

We have read that the Government has absolutely prohibited the manufacturing of this ether.

Not surprising!

If Right, though Right without a Flaw,
 Is all you have, don't go to Law.

If Prayers of Dogs were heard at all,
 What showers of bones from Heaven
 would fall!

Who sells Grain is a merchant,
 Heed ye, then;
 Who hoards Grain is a
 Murderer o' Man.

AN ABSOLUTE FACT

Man is clay, that's why women make a mug of him.

Do Your Ears Buzz? Have You Headaches?

When your ears ring, your head aches, and you seem slightly hard of hearing, beware of Catarrh. Mr. J. A. Hammil, writing from Greenmount, P.I., was similarly troubled, and writes: "No one could have worse Catarrh than I had for years. It caused partial deafness, bad taste, upset my stomach, made me sick all over. 'Catarrhzone' cleared my nostrils, stopped the cough and gave me a clear feeling in my breathing organs. I am now absolutely well, thanks to Catarrhzone." Nothing so certain as a Catarrhzone Inhaler to strengthen a weak throat, to rid you of Bronchitis, to drive out Catarrh, coughs and cold. Sold everywhere, 25c, 50c and One Dollar for complete two months treatment. Dealers, The Catarrhzone Co., Montreal.

"Your Teeth"

By Rea Proctor McGee, M.D.,
D.D.S., Editor of Oral Hygiene.

CHILDREN'S HABITS.

Copyright, 1921, by Rea Proctor McGee.

Habits formed in childhood are very difficult to break. The younger the child, the more quickly a habit is formed.

Their experience having been so limited, they very quickly become accustomed to almost any new diversion that may come their way. Many little things that, at the time, seem trivial, will have a severe effect in after years.

One of the worst habits that a young child forms is that of thumb sucking. Many mothers would rather have the baby quiet than dissatisfied with life in general and raising Cain. But the pacifying of the youngster by this method will cause a great deal of difficulty.

When a child sucks its thumb it pushes the roof of the mouth upward so that it makes a very high arch; and as the roof of the mouth is the floor of the nose, the nasal space is reduced and the septum of the nose is pushed over either to the right or to the left—usually to the left.

The upper teeth in front, along with the bone in which they are imbedded, are pushed forward and upward, and the lower front teeth and the surrounding bone are pushed inward and downward.

Medicated-dentifrices should not be used by children. What they need is just thorough scrubbing of the teeth twice each day with clean water and a mild, pleasant tooth paste or powder.

WHEN WOMEN SUFFER

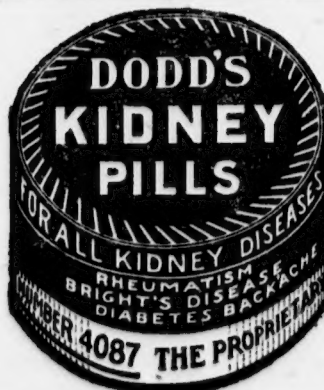

Look for weakness or ill-health. See if there is not a side ache, headache, restlessness and the "blues." The symptoms indicate that you need the gentle assistance of Dr. Hamilton's Pills. This soothing medicine is a great friend to womankind. They are a wonderful relief to constipation, they clear up sick headache, remove wastes and poisons from the system. Girls and women can use Dr. Hamilton's Pills with great success. Thousands use no other medicine and rely solely upon Dr. Hamilton's Pills to regulate the system and keep it in smooth running order, 25c all dealers or The Catarrhzone Co., Montreal.

Then It Happened.

"Sure you would!" mused the Cheerful Idiot.

"Sure you could what," demanded the Wise Guy.

"Why if a couple of deaf mutes are on their honeymoon, you can say that they are unspeakably happy can't you?" replied the Cheerful Idiot.

W. N. U. 1373

Four Men Manage Huge Business

MacDonald Tobacco Co. Shunned
Letter Writing and Telephones.

Recent circulation and disapproval of an unfounded rumor to the effect that W. C. MacDonald, Reg'd., Inc., has been acquired by the Imperial Tobacco Co., recalls an industrial history which is perhaps the most remarkable in the chronicles of Canadian business. In these days of gigantic corporations (among such the MacDonald Company is to be considered as one of the largest manufacturing enterprises in Canada), we seldom think of a "one-man business" otherwise than as a good prospect for the assignee; yet the MacDonald institution has always been, still is and will continue to be during the lifetime of its present owners, at any rate, a one-man business in the strictest sense of the term.

The largest producers of plug tobaccos in this country, and now among the largest, too, of cut tobaccos, it employs an office staff of five persons! Modern business men, recalling personal experiences, may be inclined to scout this statement, but it is none the less true. A business aggregating many millions of dollars annually is transacted by five office employees. This condition, presumably, is a survival of the form of efficiency for which that enigmatic, taciturn business genius, the late Sir William MacDonald, was distinguished. In fact the spirit of the late founder still looms large in the conduct of the company's affairs.

William Christopher MacDonald founded his business of tobacco manufacturer in 1858, and since that time the name MacDonald has been one to conjure with in this country. Because in his later life he consistently refused to take cognizance of such modern adjuncts of business as the telephone, the office building elevator, the automobile, etc., it has been alleged that he was not a progressive individual, but his success affords ample disproof of such a contention—a success unparalleled, perhaps, in the history of Canadian business, a success such as enabled him to be, next to the late Lord Strathcona, Canada's greatest philanthropist. In the person of his secretary he found a talent like to his, and that talent, transmitted to the sons of the secretary, Howard and Walter Stewart, still controls, solely, the business of W. C. MacDonald, Reg'd., Inc., for to these two men Sir William left the wonderful enterprise he built up.

While the Stewart Brothers have recognized the merits of advertising with the result that their company is today one of the biggest advertisers in the Dominion, while they have taken cognizance of the automobile and of modern equipment, it is none the less true that the industry they control is still guided, and will be during their lifetimes at least, solely by the spirit and unrivalled commercial wisdom of the late Sir William Christopher MacDonald. Hence, any rumors of the purchase of this business by other interests are at once untrue and illogical.

Requisite on the Farm.—Every farmer and stock-raiser should keep a supply of Dr. Thomas' Electric Oil on hand, not only as a ready remedy for ills in the family, but because it is a horse and cattle medicine of great potency. As a substitute for sweet oil for horses and cattle affected by colic it far surpasses anything that can be administered.

Many mothers can testify to the virtue of Mother Graves' Worm Expeller, because they know from experience how useful it is.

Ore Sent To California

Regulations Forbidding Export For Smelting Are Waived.

About 3,000 tons of silver-lead ore, which has been mined in the Mayo district of the Yukon, is to be sent to Selby, California, for smelting. An order of the governor-in-council has allowed this export, despite regulations of the department of the interior that such ore shall not be mined unless it can be refined in Canada. This exception has been made in view of the fact that there are at present no Canadian smelters who are prepared to accept the shipment for treatment.

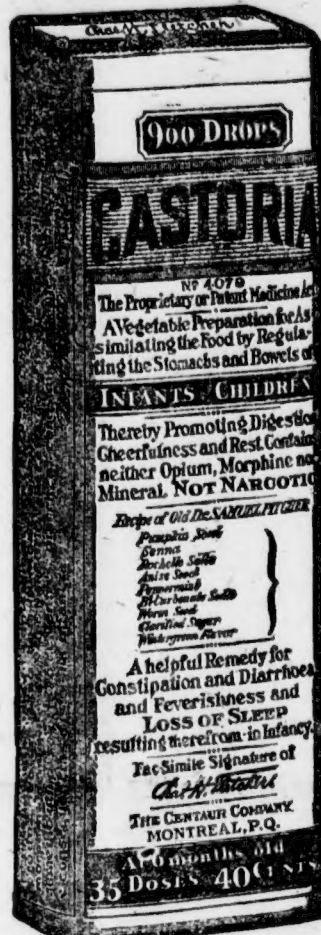

Minard's Liniment Lumberman's Friend.

When Baby Complains.

THERE ARE MANY WAYS a baby has of expressing any pain or irregularity or digression from its normal condition of health and happiness. A short sharp cry, a prolonged irritated cry. Restlessness, a constant turning of the head or of the whole body, fretful. In these and other ways a baby tells you there is something wrong. Most mothers know that a disordered stomach, or bowels that do not act naturally are the cause of most of baby's sufferings. A call for the doctor is the first thought, but in the event of any delay there should be ready at hand a safe remedy such as Fletcher's Castoria.

Castoria has been used for baby's ailments for over 30 years and has merited the good will of the family physician in a measure not equaled by any other baby's medicine because of its harmlessness and the good results achieved.

And remember this: Castoria is essentially a baby's remedy and not a cure-all for every member of the family. What might help you is too often dangerous when given to a babe.

Exact Copy of Wrapper.

Children Cry For

Fletcher's
CASTORIA

Let's Think It Over.

There is such a thing as saying too much on any subject, and the "grand-stand" talker sooner or later becomes a bore. The truth is always welcomed, and the truth reiterated and confirmed is more than welcome—it reaches your innermost soul.

Fletcher's Castoria is all its advertising has claimed for it. Scrutinized by the microscope of public opinion and used for over thirty years it stands without a peer in the hearts of thoughtful, cautious, discerning Mothers. And once used, mother love—there is no substitute for mother love—will scorn to try a "substitute" or a "just-as-good".

Masquerading under many names drugs that are injurious to the tender babe have found their way into some households, but the light of experience soon casts them out. Are they cast out before it is too late?

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher

THE CENTAUR COMPANY, NEW YORK CITY.

If the whole of the watery vapor in the atmosphere were to fall at once in the form of rain it would not, according to experts, cover the entire surface of the earth to a depth of more than five inches.

ECZEMA

You are not experimenting when you use Dr. Chase's Ointment for Eczema and Skin Irritations. It relieves at once and gradually heals the skin. Will Oppose Renewal Of Anglo-Japanese Treaty

Said That Premier Meighen Will Use His Influence to Have Treaty Denounced.

London.—The advisability of renewing the Anglo-Japanese Alliance, a question in which Canada is vitally interested, will be the first subject before the conference of Prime Ministers in session here.

Premier Hughes, of Australia, interpreting the public sentiment of his country, will urge renewal, but Premier Meighen is also certain to throw the whole weight of his influence toward having the treaty denounced. The Canadian premier was willing to support a renewal of the Alliance providing it could be shown that such renewal was necessary to British interests, but it has become clearer that no vital empire interest is involved and there is a strong sentiment here, both in Government circles and in the press, against the treaty, he has practically determined to fight against renewal to the utmost of his power.

The Premier of Canada will base his opposition to the treaty on three grounds: First—That the reasons which made it necessary in 1911 have since disappeared.

Second—That renewal of the treaty would be regarded as a challenge to the United States where the Harding administration and the new Congress have just taken a step in the direction of disarmament, and,

Third—That the formation of special alliances is antagonistic to the spirit of the times and to the endeavor that the world is making toward disarmament and peace.

In this attitude Mr. Meighen is certain to encounter strong opposition. Premier Hughes has been talking and giving interviews to the British press and is demanding the treaty be renewed. He urges, of course, that it be framed in such a way as to be satisfactory to the United States, but few here believe such a thing to be possible. The Australian Premier's strong card will be the attitude which Premier Meighen is almost certain to adopt on the question of naval defense. The Canadian Premier urging that this question be postponed until the next constitutional conference.

Re-Elected By Acclamation

Hon. C. A. Dunning, Provincial Treasurer, who was returned by acclamation to represent Moose Jaw County in the Saskatchewan Legislature.

B. C. Would Restrict Japanese Immigration

Victoria.—The Provincial Government, through Premier Oliver, has forwarded to the Rt. Hon. Arthur Meighen in London, a cablegram strongly urging that any renewal of the Anglo-Japanese treaty should preserve to Canada the right to restrict Japanese immigration, something which the existing treaty does not stipulate. In connection with this subject, Hon. E. G. Barrow, minister of agriculture, has collected data showing to what extent Japanese and Chinese are engaged in the business of agriculture and horticulture in this province. This information has been forwarded to Hon. Dr. Tolmie, who accompanied Premier Meighen on his mission to England.

Greek Offensive Beginning

British Reserves Relieving Division On Sea of Marmora.

Constantinople.—Opening of the Greek offensive against the Turkish Nationalists in Asia Minor is believed to be imminent. British reserves are relieving the Greek eleventh division at Ismid, on the Sea of Marmora, which is proceeding to the Ushak front, near the Bagdad Railway, northeast of Smyrna.

The allied high commissioners here have authorized the Greek fleet to operate from Gallipoli, at the southwestern end of the Sea of Marmora, up through the Bosphorus and along the Black Sea to Bakum on the Georgian coast. The Greeks have assigned to this work a squadron consisting of 25 warships.

Ice Cream Is Luxury.

Ottawa.—In a judgment issued, the Board of Railway Commissioners refused the application of the manufacturers of ice cream that this commodity should be placed in the second class for express purposes and not in the first class as at present. In rendering his judgment, Chief Commissioner F. B. Carvell declares that ice cream is essentially a luxury.

B.C. Forest Fires.

Victoria.—Forest fires in British Columbia during the last week brought up the total for the season so far to 158, according to the report of P. Z. Caverhill, chief forester.

Patronize your local merchant and thereby help to build up your home town and community.

For Stiff Neck And Sore Throat

Immediate relief comes from rubbing Nerviline over the chest and lower part of the neck. Rub in deeply—lots of rubbing helps. Nerviline reaches the congested parts at once, relieves tightness, takes out the soreness. A bottle of Nerviline in the home relieves a hundred ills, internal and external. Used for nearly half a century, as a general household remedy. Large bottles 35c at all dealers.

W. N. U. 1373

Old-Time Yarns in the West

By O-GE-MAS-ES (Little Clerk).

(Copyrighted)

I was managing the Fairford Post of the Hudson's Bay Company in the winter of 1874-5 and was fortunate enough to own a splendid train of dogs that I have mentioned in former sketches. Mr. Isaacs Cowie at Manitoba House was my immediate chief and at his request I took a young sleigh dog to train with my own as these had a peculiarly fast slinging trot which covered the ground in an amazing way.

I had occasion to visit Manitoba House, or the Post as it was commonly called, and started early one morning in the dead of winter, hitching up the strange dog with my own. As I was taking a cariole and traveling light, I intended riding all the way and dressed very warmly accordingly. My dogs were not at all pleased with the interpoler and quite often would give him a sly nip behind, to which he would naturally retaliate, and this made the train go even at a faster pace than usual. We were about fifteen miles out from Fairford and well on towards the centre of the frozen lake, when feeling tired and cramped I called a halt and got out of the cariole for a few minutes to stamp about and bring the circulation back. Turning my back on the dogs for a minute I heard a clash of bells and off they went in a flash, fortunately in the right direction. Running at top speed, I managed to keep near them for several miles, but noted with dismay they were gradually gaining ground and I was blown, also sweating profusely, as I had far too many clothes on for a dog-runner. I stopped and rested a minute or two, then taking off my heavy coat jogged along at a steady pace. But gradually the train drew further and further away until lost to sight, and then I had only the marks of their claws on the hard drifted snow for a guide, and even these gradually disappeared as some light snow was falling. My hard running at the start had been too much and then it was a long time since breakfast and naturally all my grub was on the sleigh. I began to feel very much exhausted and an overpowering desire to rest at any cost came over me. Placing my capot on the ice I lay down on my back and stretched out my arms. My eyes closed and I verily believe I would have been fast asleep in two minutes, but I found my right hand holding something and on holding it to my sleepy eyes, lo and behold, it was a little frozen mouse, one of the kind with long noses. Goodness knows how he ever had got out here at least twelve miles from the shore, but on gazing at him a sudden conviction came over me that if I once fell asleep I would be like the mouse in a few hours—frozen stiff. With that I stiffly regained my feet, piled up my heavy coat, muffler and mittens on the ice and started for the

Narrow to a steady trot.

Providentially for me an enterprising Yankee had built a log cabin right in the centre of the right-of-way of the old Canadian Pacific location which, as old-timers will remember, had decided on this route. This cabin I struck just about sundown and I was about all in, no food during the day, the overheating in the morning and now chills had come on and my legs felt like lead. My hands were too numb to rap at the door, so I ran against it, and on its opening, collapsed on the floor. Like all pioneers he was extremely hospitable, and taking off my outer clothes placed me in a warm bed, rubbed my limbs and gave me small doses of whiskey and water, so in a short time I was able to sit up and eat some supper.

Next morning I was at the Post bright and early hoping to find the dogs there, but no signs of them. We at once sent out a search party as there was some valuable furs at the back of the cariole, a silver fox amongst them, but the searchers returned in the evening, reporting no luck. Several days elapsed and I was disconsolate, as parties had been out daily but could find no trace of the dogs. One evening, as I was looking out over the lake, I saw a dog-train coming in from the northeast at an unusually fast rate and calling Cowie to bring the field glasses we soon decided they were the missing dogs, but as they reached the landing there were only four, the stranger having disappeared.

A young Indian was riding in the cariole and told the following story: "I went out on foot to visit a line of wolf traps and on getting near the last one on the east side of the lake I noted some large animals walking round it. When they caught sight of me they came tearing in great bounds and thinking they were wolves I prepared to defend myself with an axe (the only weapon I carried). But when I saw they were dogs I then knew these were the train that had ran away from Oge-mas-es, and my, but they were glad to see me and licked my face and hands. On going up to the cariole I found Mr. Cowie's dog in my trap with a solidly frozen foot and the harness still on him. So, as he would be of no further use, I knocked him on the head for wolf bait."

On examining the dog harness I noted that three of the belly bands were chewed in half, and on his telling this I at once realized what had happened. Nero, my second dog, was a slim, thin haired creature with a very small head and could get out of his traces at any time my simply slipping the collar over his head. Then he apparently had set to work and released his brothers one by one, leaving the unfortunate stranger to his own devices.

Rotarians at Edinburgh

Many Countries at Rotary Convention Held In Scotland.

Edinburgh.—It was reported at the annual convention of the International Association of Rotary Clubs, that there were represented at the session 669 clubs from the United States, 33 from Canada, 31 from Great Britain and Ireland, 5 from Cuba, 3 from South America, and 1 from India.

Prior to the beginning of the business session, Frank Weedon, of New York, led the delegates in the singing of popular songs, thus upholding the unconventional nature of the assembly.

A Farewell Gift

Wives of Cabinet Ministers Present Gift to Duchess.

Ottawa.—The wives of the federal cabinet ministers presented as a farewell gift to the Duchess of Devonshire, a silver casket with the Canadian coat of arms enamelled thereon and lined with gray satin. The presentation was made at Government House by Lady Foster, wife of the acting premier. Lady Foster expressed the regret of the cabinet ministers' wives over the departure of Her Excellency and their appreciation of "the tender sympathy shown during all the times of storm and stress through which we have passed together."

German Haircuts Up.

Berlin.—Germany is being forced into an alliance with the Bolsheviks. Berlin barbers are to blame. They announce that on account of high labor cost, price of haircuts and shaves will be boosted 20 per cent.

COULDN'T DO HOUSEWORK

HEART SO BAD

Many women become run down and worn out by their household cares and duties never ending and sooner or later find themselves with weak hearts and shattered nerves.

When the heart becomes weak and the nerves unstrung, it is impossible for a woman to look after her household or social duties. The least little exertion or excitement leaves her in an exhausted condition, and not fit to do anything.

On the first sign of any weakness of the heart or nerves, you will be wise if you take a course of Milburn's Heart and Nerve Pills.

Mrs. Daniel Bezanon, Loganville, N.S., writes:—"As I was troubled with a weak heart for nearly two years I am writing to tell you what your great remedy, Milburn's Heart and Nerve Pills, has done for me. My heart was so bad at night I could not sleep; I would take soothing spells, and I was so weak I could not do my housework. I tried two doctors, but got no results. A friend advised me to try Milburn's Heart and Nerve Pills. I have used six boxes, and I am completely relieved. I think they are the best medicine for heart trouble there is."

Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Would Be Serious Matter

Invalidation of Grain Act Would Make Chaos in Canada.

Moose Jaw.—A chaotic condition of affairs would exist in the country should the Canada Grain Act be found ultra vires, is the opinion expressed by Justice Hyndman, chairman of the Royal Grain Inquiry Commission. In discussing the legal status of the commission and the Grain Act, His Lordship pointed out that the situation would be similar to that which would exist should the Temperance Act be found unconstitutional. In such event, any person who wished to would be able to peddle whiskey without interference from the law. If the Canada Grain Act was found to be ultra vires of Parliament, this condition would obtain in the grain business. His Lordship intimated that he considered it possibly the most serious situation which had confronted Canada for a long time.

Airmen Block Smugglers

Official Announcement State Mexican Aviators Doing Good Work.

Mexico City.—Mexican aviators patrolling the Rio Grande border are declared to be doing good work in the apprehension of smugglers according to an official announcement. They are keeping up a rigid inspection from Piedras Negras to Matamoros. To date most of their captures have been persons bringing tobacco into Mexico.

Printers Strike Money.

Toronto, Ont.—Eighteen thousand dollars in strike money was handed out at the Labor Temple to members of the Typographical Union on strike. Married men receive \$25 a week, single men \$20 and apprentices \$12. Union leaders report that seventy employers have signed up with them conceding the forty-four week.

Treaty Money For Indians in North

Edmonton.—The Indian treaty party—distributing government money to the Mackenzie River natives comprises six men, with H. A. Conroy at their head and will be in the north till the end of August. The party is travelling on a house boat towed by the Hudson's Bay power boat Hubaco. Side trips will be made up some of the smaller streams by canoe. About \$10,000 will be paid out in treaty to the Indians north of Fort Providence. The money was sent ahead to Fort McMurray in care of the Hudson's Bay Company and is now being taken with the party for disbursement along the way. The itinerary of the treaty cashiers will extend to Fort McPherson, at the end of the line, this being the first time that the Mackenzie River tribes have ever been included in the scheme.

Raising the Standard

Manitoba May Insist on Higher Qualifications for Teachers.

Winnipeg.—A movement has been launched to raise the standard of education in Manitoba by insisting on higher qualifications for public schools teachers. A couple of years ago the province was short of teachers. Today, according to those in touch with the situation, there are plenty to go round.

Under these circumstances it is believed the time is opportune to raise the standard.

Britain Sends Warning To Turks.

Constantinople.—The British have warned the Turkish Nationalists that any attempt to take Constantinople will mean war with Great Britain.

The purpose of sending a British brigade from Malta to relieve the Greeks at Ismid is to frustrate any such Nationalist attempt to occupy Constantinople.

New Rotary President.

Edinburgh.—Dr. Crawford C. McCullough, of Fort William, Ont., was unanimously elected president International Association of Rotary Clubs now in session here for the ensuing year.

France Hindering

Silesian Adjustment

Lack of Co-operation is Producing Serious Situation.

London.—Great Britain, in a further communication to France on the Silesian question delivered through Lord Hardinge, British ambassador to France, calls attention to co-operate in the restoration of order in Silesia, and declares that the lack of concerted action is producing an increasingly serious situation. Great Britain suggests that all the British troops in Silesia be placed under British command which would involve the relinquishment of French military control at some points. It is explained that this would have the effect of freeing more British forces for independent action.

Corns, Warts, Bunions Painlessly Removed

Don't limp any longer, don't suffer another hour from corns. The oldest remedy and the best, the one that for fifty years has proved a true success, will lift out your corns in a hurry. Putnam's Painless Corn and Wart Extractor is the one remedy to use. Refuse a substitute, 25c everywhere.

West's Wonderful Future When Agriculture Possibilities Have Been Fully Developed

Much has been written regarding the achievements of Western Canada as a prime wheat growing region, supported by ten years of uninterrupted success in securing the world's premier honors for this cereal in contest with the first growers of the American continent. The west has become justly renowned for its grain production, and instead of the cattle-dotted prairie which the mind conjured on mention of the western plains, the imagination now pictures a sweeping vista of miles of surging waves of golden tossing heads justifying the appellation of "Granary of the Empire." The prominence given to a successful wheat growing is apt to suggest a specialization and exceptional achievement, but the versatility of Western Canadian production was very ably illustrated at the last International Livestock and Grain Show held in Chicago in 1920, when out of twenty-five prizes, Canada secured twenty-one, including the premier trophies for wheat, oats and Clydesdale horses.

The prominence wheat receives may overshadow the production of other cereals to the exclusion of the successes they have also achieved in the international field. Yields of 120 bushels of oats to the acre have been recorded in Western Canada and one-hundred-bushel yields have ceased to cause comment. In point of quality, it might be mentioned that the \$1,500 trophy for oats presented by the State of Colorado was won four times successively by J. C. Hill & Sons, of Lloydminster, Alta.

To take the successes of the last five years. In 1916, at the International Soil Products Exposition at El Paso, Texas, Alberta oats were awarded the sweepstakes, and later, when the same exposition came to be held at Peoria, Illinois, Alberta dropped one place, securing the second prize whilst the premier honor was divided between her sister provinces of Manitoba and Saskatchewan. In 1918, when the International Exposition was held at Kansas City, Manitoba secured the ascendancy over its sisters and carried off the first three prizes for oats as well as the sweepstakes for the same crop. In 1919, one of the years in which the wheat championship went to Saskatchewan, it also secured the premier oats honor with first place and sweepstakes. Coming right up to 1920, at the International Livestock and Grain Show at Chicago, J. C. Lucas, of Cayley, Alberta, brought the world's oat championship to his province. In the past five years, Alberta has secured the oat sweepstakes twice, Manitoba and Saskatchewan once each and divided it once. Never once has it left the boundaries of the three prairie provinces.

Barley, which is the other cereal in the production of which Western Canadian farmers have entered largely and pitted their crops against the best of the continent, rivals oats in its list of awards. For four successive years at the exhibitions of the International Dry Farming Congress held respectively at Lethbridge, Alta., Tulsa, Okla., Wichita, Texas, and Kansas City, Mo., the first prize was secured by an exhibit of Western Canadian barley. To follow this up, Manitoba carried off the first three prizes for this crop in 1918.

Taken in conjunction with the wheat records this is a truly remarkable showing, giving Western Canada nearly every cereal honor for a number of years against the competition of the world's first farming areas. And when it is considered that the huge tract, which includes the farms which raised these champion crops, is yet to a great extent undeveloped, the achievement is still more remarkable and augurs a wonderfully productive future for the time when ever growing settlement shall have broken up the waiting millions of fertile acres.

Awarding Contract For Irrigation.

The awarding of a contract for removing 6,000,000 cubic yards of earth from the fifty miles of ditch of the Lethbridge northern irrigation district is announced. Completion of the contract will bring under irrigation 105,267 acres of settled country.

People of India Offer Human Sacrifices

Attempt of Troops to Rescue Woman Causes Riots.

A government report on the serious riot which took place recently in the village of Sirichir, in the Rajputana agency, states it was caused by the offering of human sacrifices. During the disorder seven persons were killed and ten were wounded.

The village, which is the home of many members of the ancient sect of Charays, became greatly excited over the refusal of the Charays to pay the usual revenue contribution. Sepoys were sent to enforce collection, and found the Charays had followed traditional methods of bringing the vengeance of heaven upon the state by burning an old woman alive. She had been placed upon a pyre, which was lighted by her nearest relatives. When the troops attempted to rescue the victim, the villagers opposed them with knives and swords, wounding several soldiers. The Sepoys thereupon fired a volley into the crowd, which scattered, but the attempt to rescue the woman came too late to save her.

Lions Charge Auto

Thrilling Experiences of U.S. Naturalist While Taking Cinema Pictures.

Mr. H. A. Snow, the American naturalist, has had a thrilling experience just outside Nairobi while obtaining cinema pictures and specimens for the Oakland Museum in California. He had stationed his photographer on a convenient hummock, and was himself beating the game up to the camera by driving round in a car, when he struck a party of five lions. He stopped the car and fired, but missed, and two of the animals charged.

Mr. Snow immediately reversed and raced away, but the two animals kept pace a short distance behind. The hunter was suddenly horrified to find that a third lion had made a detour and was waiting for the car to come up. When within a few yards the third lion sprang, but the driver caused the vehicle to swerve, with the result that the beast hit the side of the car and rolled off.

The naturalist was beginning to leave the other two animals behind when the car hit a stone and he was flung out. This frightened the lions, and they made off, though Mr. Snow succeeded in shooting them later.

Sir John Eaton Entertains Veterans

Attractive Programme of Sports Enjoyed by Disabled Men.

Five hundred disabled war veterans and nurses in the Toronto hospitals were the guests of Sir John Eaton at his beautiful residence, "Ardwold," recently. Under the direction of managers from Eaton stores, the veterans were conveyed to Sir John's residence in autos and were personally greeted by the knight.

Playing host in an admirable manner, Sir John arranged an attractive programme of sports for the soldiers, who, despite their disabilities, showed prowess as athletes. The veterans' race was won by a real veteran, a man over ninety years of age, who has been through several wars. On leaving, the veterans were promised another visit "before the summer is over."

Spanish Peasants Use Queer Light.

The cork oak grows plentifully in Spain, and the peasants make use of the bark to light their houses at night. The bark is placed in a kettle, from which protrudes a spout, and when it is hot enough it gives off a gas which burns with considerable brilliancy.

To Learn Railroading In Canada.

A party of students from the universities in China recently arrived at Victoria. They have come to Canada to study modern methods of railroad management.

French See German Menace in Air

War Organization Maintained Complete and Could be Quickly Mobilized.

General Hirschauer who, during the war, was Air Commissioner for France, has written an article on the Development of Aviation in Germany. He sums up the conclusions of his article as follows:

"Today German air action could be only a simple replica of what was done during the war. We are stronger than Germany in the air, and we are stronger than she is on land. In a short time the situation can change, for Germany is working and has preserved intact her means of production. She wishes to develop her air power, and is putting, and will put in, all the necessary activity.

"To meet the danger we should maintain our air forces in activity, largely develop our means of commercial air transport, and maintain a military aviation force that is always mobilized, and an air defence force on the spot. We should take away from Germany all facilities to arm without ruining the State, and centralize those of our finances that are devoted to national defence. We should bring to our air army resources that would be derived from other armies, and we should modify the conditions of foreign policy. The custody of the Rhine is not sufficient."

The conclusions of General Hirschauer are interesting, as showing that France is very thoroughly alive to the menace of German aviation.

Mechanical Flies

Shows How Common House Fly Carries Infection.

Mechanical flies are the newest thing in health education. Officials of the Bureau of Public Health have devised these flies in order to demonstrate the manner in which the house fly carries infection. The mechanical fly shows how efficiently the fly gathers up germs and carries them along with them, finally passing them on where they will do the most harm.

A Library For Every Farm Is The New Slogan For Prairie Provinces

France Discusses Naval Program

May Abandon Battleships For Submarines and Destroyers.

In presenting France's programme of naval construction for the next three years, Deputy Paul Denise, reporter for the navy commission, advocated, in the chamber of deputies, the virtual abandonment of the building of battleships and battle cruisers and intensification of construction of submarines, torpedo boats, destroyers and aeroplane carrying ships.

The programme provides for the construction of 6 light cruisers, 12 destroyers, 12 torpedo boats and 36 submarines, at an approximate cost of 1,416,000,000 francs.

M. Denise asked the chamber to vote for the transforming of five battleships, work on which was stopped during the war, when the hulls were completed, into aeroplane motor ships. He refused to be drawn into a discussion as to whether he agreed with the British admiral, Sir Percy Scott, that the day of battleships was past, but quoted Rear-Admiral Sims, of the United States navy, and also Admirals Beatty and Jellicoe, of Great Britain, and Von Scheer, of Germany, as having a different opinion from Admiral Scott.

He pointed out that France, as a pacific nation, needed a navy for coast defence, not warships for offensive action, and said there was nothing to fear from Germany. France had no desire to attack any other nation. The principal reason for the abandonment of construction of battleships by France, he added, was the realization that France could not keep up the peace with Japan, England, and particularly the United States, which were building more units than before the war.

"A Library for Every Farm" might appropriately be adopted as the motto of the Agricultural Extension Service of the provinces of Alberta, Saskatchewan and Manitoba, which attempts to circulate the best in literature throughout the rural districts, and further education as well as foster greater interest in the social aspect of farm life.

Agricultural countries like Canada and the United States have always with them a subtle, half-exposed problem in the inherent tendency of the youth of the farm to be drawn to the bright lights and the allurements of the city. It is not that farm work is any longer the drudgery of the pioneers, for modern machinery has largely removed the arduous element from present-day farming, whilst the man with a successfully operated farm is now often the envy of the business and professional man. But the natural drift of youth is to imagine that which he has not surpassed those things which surround his everyday life, and to the youth of the farm the city's attractions, its theatres, its crowds and busle seem eminently desirable to live among. It is exactly the same attitude which makes the city-bred youth turn to the country fields and pastures and find such pleasure in the quiet and solitude of pastoral life.

And so men who have most clearly realized this drift and its causes, and seen the national danger it constitutes to a country whose foundation is the pursuit of agriculture, have devoted great energy to encouraging the youth to stay on the land, and have found the most effective remedy to be in furthering the pleasures of rural social life and bringing some of the things of the city to the country.

In Canada, the government has taken a hand in this, and by introducing many novel features of social life, and offering facilities for others, plays an important part in bringing to the young men and maidens of the farm, a realization of the large future they hold to themselves and to the nation. Lecturers travel the provinces and deliver talks on a variety of subjects; school gardens are subsidized and encouraged; competitions for boys and girls are held in connection with all agricultural fairs; farm literature on every possible subject is available for the asking. In every conceivable manner the provincial governments show their appreciation of what the farm youth means to the country.

One of the keenest and most widely enjoyed pleasures of the country, especially in the winter season, is reading, for here there is oftenest the leisure and the desirable state for enjoyment. Books in rural districts take the place of many other and often less desirable and instructive means of enjoyment. Reading under the circumstances becomes study, for matter is well meditated and digested. Unfortunately, there is often one drawback, the availability of literature. Frequently a farmer is not in a position to collect a library of his own, and the city's facilities for borrowing books cannot be carried into the country districts. This question of supply, the provincial governments set out to solve.

Under the system as evolved by the Agricultural Extension Service of Alberta, Saskatchewan and Manitoba, a rural community has but to make an application and a compact folding case containing fifty volumes is sent to them. These books cover a wide variety of subjects with a substantial proportion of fiction. The books are circulated among the different farms, and when read are returned to the bureau whereupon a new library comes along.

This system of travelling libraries is doing a splendid work both in brightening social rural life, and in furthering the educational status of the farm population of these provinces. The best books only are to be found in these libraries, and careful plans are laid for the cultivation of desirable literary tastes. Whereas at first ninety per cent. of the volumes are fiction, this proportion is gradually decreased, and the deficit made up of more valuable works of economic thought.

Pioneer Days In The West

Early settler hauling load of poplar poles with the aid of his trusty yoke of oxen.

An Advertising Artist

Organ-Grinder Did Not Let Good Chance Slip.

Some men never let an opportunity slip. They make the most of every chance, as, for instance, a certain organ-grinder who once played his organ outside the house of Mascagni, the famous composer. Mascagni is often driven wild by hearing his music "murdered" on piano-organs, and on this occasion he left his house and interviewed the street musician. He did not send him away. He merely took the handle of the instrument, turned it around faster and quickened the tune. The organ-grinder smiled his thanks. Next day he again appeared in the street. This time his organ bore a large placard on which was inscribed: "Pupil of Mascagni."

Surprised the Bishop.

A bishop saw one of his parishioners clinging to a lamp-post.

"Wilkins, Wilkins!" said the Bishop. "Can it be you? How often have I preached to you? Sermon after sermon! I am so sorry!"

After which he walked dejectedly away. But presently the voice of the intoxicated person reached him and he turned back in the hope of hearing a vow of reformation.

"B'sh'p," said the man, "if you really are sorry, I forgive you."—London Tit-Bits.

Sheep Raising

At Fort Vermilion

Conditions Reported Good for Sheep In Northern Alberta District.

W. J. Stark, secretary of the Alberta Provincial Sheep Breeders' Association, has received a very interesting letter from W. H. Russell, of Peace River, who has a flock of sheep at Fort Vermilion, and who has just joined the association for the purpose of marketing his wool through the annual association sale.

In his letter, Mr. Russell says he had a very difficult time getting sheep to Fort Vermilion; they were taken in scows last fall, but wintered exceedingly well; out of a hundred and eight head, only two were lost during the winter; some lambs born in February weighed, on May 15th, forty pounds each. Mr. Russell states that so far they have had no trouble with wild animals, which is much more than many farmers can say who live much closer to the centres of civilization than Fort Vermilion.

Mere Matter of Form.

Clancy.—Oh want to get a first-class ottomobile for me wife.

Auto Dealer.—Long body?

Clancy.—Begorra, no! She's built like a barrel—but what's that got to do with it?—Boston Transcript.

Spending your money at home, thereby helping your own town and local merchants.

Make Shaving a Pleasure With Cuticura Talcum

After shaving with Cuticura Soap the Cuticura way, Cuticura Talcum is an indispensable adjunct. Antiseptic and prophylactic, it is soothing and refreshing to the most tender skin.

Soap 25c. Ointment 25c. Talcum 25c. Sold throughout the Dominion. Canadian Depot: Lyons, Limited, 344 St. Paul St., W., Montreal. Cuticura Soap shaves without mug.

Cook's Cotton Root Compound

A safe, reliable regulating medicine. Sold in three doses of strength—No. 1, 81¢; No. 2, 53¢; No. 3, 55¢ per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: THE COOK MEDICINE CO., TORONTO, ONT. (Formerly Windsor.)

Blind Men at Work

Report of St. Dunstan's Shows Soldiers and Sailors Busy.

Blind sailors and soldiers ready and willing to do their share in building the new world are to be kept busy. Sir Arthur Pearson states, in the sixth annual report of St. Dunstan's Hostel, that increasing schemes are in formation to create activities for blind sailors and soldiers. "We are still hard at it with the aftermath of the war," writes Sir Arthur. There are now 1,772 names on the books of St. Dunstan's, and more than 1,200 men are already at work.

Catarrrh

Catarrrh is a local disease greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and Blood Purifier. By cleansing the blood and building up the System, HALL'S CATARRH MEDICINE restores normal conditions and allows Nature to do its work. All Druggists. Circulars free. E. J. Cheney & Co., Toledo, Ohio.

The patriotic man is loyal to his country and to the community in which he lives. If he is consistent he will give first preference to Canadian made goods when making purchases. He will also stand loyally by his local dealer.

Pains About the Heart

ANY derangement of the heart's action is alarming. Frequently pains about the heart are caused by the formation of gas arising from indigestion.

Relief from this condition is obtained by the use of Dr. Chase's Kidney-Liver Pills.

Chronic indigestion results from sluggish liver action, constipation of the bowels and inactive kidneys.

Because Dr. Chase's Kidney-Liver Pills arouse these organs to activity they afford lasting relief for indigestion and overcome the many annoying symptoms.

**Dr. Chase's
Kidney Liver Pills**

World Happenings Briefly Told

A new wing to St. Joseph's Hospital, Sudbury, will be built, costing about \$4,000.

Colonel Robert Olds, European commissioner of the Red Cross, has announced his resignation.

At the age of 107, Henry Jones, Cumberland county's oldest citizen, and possibly the oldest Nova Scotian, died at Brookdale, N.S.

Donald Maclean, barrister, of Saskatoon, has been appointed a judge of the court of king's bench for Saskatchewan, it is officially announced.

The southward migration of the Mennonites to the United States will not take place until the fall, according to railway officials.

Fifteen job printers employed by the Herald Press, Montreal, went on strike when given work to do which came from a Toronto shop, where the men were on strike.

Mr. and Mrs. Frank Dill, who have "just stepped over" from Halifax, are the second pair of trans-Canada hikers to finish the Halifax to Vancouver journey on foot.

Two aerial police will be added to the Chicago force to regulate aerial traffic, assist in hunting bank and auto bandits, and patrol the lake front for persons and vessels in distress.

At a military track meet in San Francisco, twin brothers who look and run alike, so confused the judges that they gave them first and second place alternately in the six events they won.

Dread of Asthma makes countless thousands miserable. Night after night the attacks return and even when brief respite is given, the mind is still in torment from continual anticipation. Dr. J. D. Kellogg's Asthma Remedy changes all this. Relief comes, and at once, while future attacks are ward off, leaving the afflicted one in a state of peace and happiness he once believed he could never enjoy. Inexpensive and sold almost everywhere.

England has reduced her war debt to Canada by one hundred million dollars during the last year.

O. McPherson,
Furniture Dealer, Undertaker,
Armstrong, B. C.,
Minards Liniment Co., Ltd.,
Yarmouth, N. S.

Dear Sirs.—Since the start of the Baseball season we have been hindered with sore muscles, sprained ankles, etc., but just as soon as we started using Minard's Liniment our troubles ended. Every baseball player should keep a bottle of your liniment handy.

Yours truly,
W. E. McPHERSON,
Secretary Armstrong High School,
Baseball Team.

Health of Animals

Provincial Veterinarian Says Condition of Stock Improving.

Dr. M. P. McClellan, provincial veterinarian for Saskatchewan, states that one of the best ways of judging how cattle came through the winter is by observing the condition of animals at the spring sales. By this test, their condition is incomparably better than a year ago. At the present time the general health of animals was never better. "The steadily increasing demand," says Dr. McClellan, "for blackleg filtrate and vaccine, which is handled by the livestock branch for the convenience of veterinarians and stockmen, amply testifies to the intelligent attitude adopted by the stockmen of the province toward preventive animal medicine."

An Oil that is Famous.—Though Canada was not the birthplace of Dr. Thomas' Electric Oil, it is the home of that famous compound. From here its good name was spread to Central and South America, the West Indies, Australia and New Zealand. That is far afield enough to attest its excellence, for in all these countries it is on sale and in demand.

Clerk.—Do you want a room for 50 or 75 cents?

Stranger.—What's the difference between them?

Clerk.—In the 75-cent rooms we put a rat-trap.

Nature has equipped a man for happiness, but he gets strenuous occasionally and slips a cog.

Ask for Minard's and take no other

THE MISERY OF BACKACHE

Removed by Lydia E. Pinkham's Vegetable Compound.

Meaford, Ont.—"I took Lydia E. Pinkham's Vegetable Compound for backache, and I also had a female weakness. I felt dizzy and nervous, and was without energy. I had to force myself to do my work, and was always tired. Saw a Pinkham advertisement which induced me to take the Vegetable Compound, and my back gradually stopped aching and I felt lighter in spirits. I am recommending the Vegetable Compound with pleasure to all I meet who complain as I did."—MILDRED BROOK, Meaford, Ont.

Woman's Precious Gift
The one which she should most zealously guard is her health, but she often neglects to do so in season until some ailment peculiar to her sex has fastened itself upon her. When so affected women may rely upon Lydia E. Pinkham's Vegetable Compound, a remedy that has been wonderfully successful in restoring health to suffering women.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

He Changed the Place.

A Chicago banker was dictating a letter. "Tell Mr. Williams," he said, "that I will meet him in Schenectady." "How do you spell Schenectady?" asked the stenographer. "S-c, S-c—er—er—er— Oh, tell him I'll meet him in Albany."

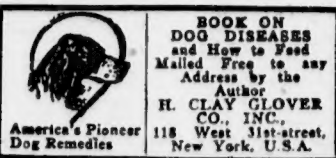

A SPLENDID TONIC FOR WEAK PEOPLE

Dr. Williams' Pink Pills Act On the Blood and Nerves.

Food is as important to the sick person as medicine, more so in many cases. A badly chosen diet may retard recovery. In health the natural appetite is the best guide to follow; in sickness the appetite is often fickle and depraved.

Proper food and a good tonic will keep most people in good health. Dr. Williams' Pink Pills are a fine tonic medicine, harmless and certain in their action, which is to build up the blood and restore vitality to the run-down system. For growing girls who are thin and pale, for pale, tired women, and for old people who fail in strength, Dr. Williams' Pink Pills are an ideal tonic. Thousands have testified to the benefit derived from the use of this medicine, among them is Mrs. William Gallie, Hantsport, N.S., who says: "Before I began the use of Dr. Williams' Pink Pills I was so weak and run down that I could hardly do my own work. I often suffered from headaches and was very nervous. I then began the use of Dr. Williams' Pink Pills and I can truthfully say I have found them the best medicine I have ever taken. You may depend upon it I will advise other sufferers to take these pills."

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

ASPIRIN

Only "Bayer" is Genuine

Warning! Take no chances with substitutes for genuine "Bayer Tablets of Aspirin." Unless you see the name "Bayer" on package or on tablets you are not getting Aspirin at all. In every Bayer package are directions for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve tablets cost few cents. Druggists also sell larger packages. Made in Canada. Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monoacetic-acidester of Salicylic acid.

Fringe Invades The Realm Of Pyjamas

By Marie Belmont.

Fringe is in high favor at the present time for adorning the varied garb of lovely woman. These pyjamas inspired by the cowboy's picturesque attire, show how effective fringe really is. They are made of pale blue crepe de chine and the fringe is of blue and pink silk. The shirt is cut generously long, so that it may be bloused about the figure. A soft fold of the crepe de chine is draped around the waist-line and knotted at the side. The collar duplicates the gay handkerchief of the cowboy, and is cut from blue crepe de chine. The turnback cuffs are also made of blue crepe de chine.

Our slogan for the coming year should be, "Buy at Home." Add to your own and your neighbor's prosperity by keeping the money circulating in our own district.

Minard's Liniment used by Physicians

Innocent Tots.

Two children were standing before the Venus de Milo.

"Wonder if she was married," said one.

"Course not," said the other. "No one could ask for her hand, 'cos she didn't have any."—Boston Transcript.

MONEY ORDERS

It is always safe to send a Dominion Express Money Order. Five dollars costs three cents.

The Endurance of Your Automobile, Truck, or Tractor

Depends not only upon the time of Lubrication, but the kind of Lubrication

Whitmore's Protective Composition

Adds 500% to Gear Life. Thousands of tests have been conducted by Lubricating experts to demonstrate the relative efficiency of various lubricants. The result of these tests conducted over years, has fixed the choice of sixteen leading manufacturers. These manufacturers include:—

The largest builder of fine cars in the world;
The largest builder of trucks in the world;
The largest builder of axles in the world;
The largest builder of worm gears in the world.

Many Lubricants contain acid. They not only fail to counteract friction, but are themselves harmful and corrosive to gear and bearing surfaces.

Whitmore's Compositions Contain No Acids

They are proof against heat and cannot break down or squeeze out. In the Panama Canal Emergency Dams, six million pounds rest on an unbroken film of WHITMORE'S. After an exhaustive test the U.S. Army contracted for its exclusive use.

Manufactured by—

THE WHITMORE MANUFACTURING CO., Lubricating Engineers, Cleveland, Ohio.

CANADIAN AUTOMOTIVE SALES COMPANY, Toronto, Montreal, Winnipeg, Regina, Canadian Selling Agents.

FRED ROBERTS, of Vancouver, B.C., says he knows what it is to enjoy good health for the first time in six years—Rheumatism is relieved and has gained ten pounds.

"For the first time in six years I know what it is to enjoy good health, and since it was Tanlac that got rid of my troubles and put me into such fine shape, I think it is up to me to state the facts for the benefit of others," said Fred Roberts, 1624 Georgia St., East, Vancouver, B.C.

"I suffered for years from biliousness and my appetite varied a lot. Sometimes I would hardly touch a bite and other times I would eat a hearty meal, but, as sure as fate, if I did eat anything, I had to suffer for it afterwards. I would get nauseated and bloat up with gas so bad I'd have palpitation of the heart and almost choke for breath. I had violent headaches that left me weak and lifeless and suffered with such awful pains in the back that it was agony to stoop over. I also had rheumatism in my right leg which gave me a lot of trouble and which kept me awake so much at night that I was tired most of the time.

"I've only taken four bottles of Tanlac so far, but already I have gotten wonderful results from it. I have a good appetite, can eat anything I fancy and never have a sign of biliousness or gas or pain afterwards. My food seems to do me good too, for I feel much stronger and have gained ten pounds in weight. I'm not bothered with pains in the back any more and the rheumatism has entirely disappeared. I now sleep well at night and get up feeling fine. My wife also has been taking Tanlac with wonderful results and she joins me in expressing our thanks for the great good we have gotten from it."

Tanlac is sold by leading druggists everywhere.

SPORTS DAY

PRIZE WINNERS

The winners were: "Merry Legs," owner C. H. Webb, Marguerite Gattine, 1st. "Shortie," owner H. Headstrom, Miss M. Headstrom, was just nosed back into second place. "Red Wing," owner C. Guinn, Mrs. C. Guinn was a close 3rd. The judges were: C. C. Pope, L. G. McQuade and W. McPherson.

Free For All.

The Free For All was won by a son of old "Sacladese," Slim Gooding's bay horse, M. Gibson, up, had a walkaway. 2nd. Harry Fuller on "Bolbie." 3rd. R. McMann on "Peter the Great."

Open Pony Race.

1st. M. Gipson on "Merry Legs." 2nd. Miss Headstrom on "Shortie." 3rd. John Gattine on "Leatitia," owned by Renée Gattine.

Girls' Pony Race.

1st. Headstrom, 2nd. Jean Foster, 3rd. Eloise Jennings.

Boys Pony Race.

1st. McMann, 2nd. Lufft, 3rd. Bolton.

Barrel Race.

The Barrel Race was won by Harry Fuller on "Boldy" with Frank Taylor, second.

Bucking Contest.

The Bucking was good. Some of the horses went high and landed hard with lots of side motion. They were the pick of the country. The boys drew for the horses and when Harry Fuller drew "Grave Digger," H. C. Gattine's buckskin

he looked like a boy who had just survived the flu, but he rode him to a finish and when the judges called to pick him up, he let out and ran, and the bucking kept on. He bucked and ran at intervals, all over the grounds till they finally picked him up. H. C. Gattine was second on a big Bay QX, who went high and landed hard with those awful sidejirks, that made one's head dizzy and sends that sickly feeling to your stomach. The judges were: Neil Cunningham, Eugene Kirby and Harry Erwin.

Boxing.

The Carbon Sports Committee staged three interesting boxing bouts in the Farmers' Exchange Hall.

Turcotte vs Blondy Greenwood. The lads went right to it at the stroke of the gong and mixed freely. Blondy drew the "claret" with a well-directed "nose-ender" and after a hard struggle got the referee's decision.

"Chuck" Murray vs "Wilcat" Macleod.

Macleod had an advantage of height and weight, but Chuck's science more than counterbalanced this. The "little 'un" was a great favorite with the fans on account of his neat boxing. He painted "Wilcat's" face most liberally with nature's ruby tints and had won well at the close of the bout.

Canning vs Weicker.

This was a real treat for the fans. Canning was the lighter man but in somewhat better condition. Weicker uncorked the claret with a rasping righthander, but Canning boxed with good judgment and earned an even draw.

Our old friend Sam Parkens was

referee. It was great to see Sam back in the ring again. We remember the excellent battles he put up in the early days in Carbon and it would sure please the old-timers to see him clashing with Weicker or Guy Ellis again.

FARMERSHAVE
CONFERENCE
WITH EDUCATION
DEPARTMENTImportant Discussion on
Educational AffairsResolutions of Approval
Are Passed.

The joint educational committee of the U.F.A. and the U.F.W.A. held its first official conference with the Minister of Education and Officials in Edmonton, yesterday. A very full and satisfactory discussion took place regarding all phases of rural problems. The efforts of the Department to provide High School opportunity for rural children were strongly approved as was also the general attitude of the Department in defending the autonomous rights of school boards. The members of the Committee made many helpful suggestions and declared their support of any plan that would equalize the educational burden throughout the Province.

After the Conference the members of the joint committee met in the Corona Hotel and passed the following resolutions which were forwarded to the Minister of Education.

That we are in favor of the authorized form of teachers' contract with an amendment to clause 5 regarding termination of agreement making this clause reciprocal and providing, in the event of either party breaking the contract, a minimum penalty equal to one month salary.

That we favor the principal of

DRAYING
and
COAL HAULING
at reasonable prices
HARRY DOLING
CARBON

Orders taken at the
ALEXANDRA TEA ROOMS

the conciliation board.

That we express our approval of the increase in the number of examination centres.

That we are in favor of plan of procedure now followed in forming consolidated schools as outlined to us by the Minister of Education.

That we are glad to note that the number of official trustees has been materially reduced.

That we are in favor of a system of Provincial taxation for educational purposes.

The report was signed by F. Baker, Ponoke, chairman S.M. Cunn, Paradise Valley, Secretary Stephen Luun, Pincher Creek, Henry E. Spencer, Edgerton.

The Mt Vernon U.F.A. held its annual service at the school on Sunday afternoon. Owing to the large number who turned out the service was held in the open air. The service was conducted by Rev. Wilfred G. Marsh who preached from Rev. 3v8: "Behold I have set before thee an open door, and no man can shut it."

The District U.F.A. Association has almost completed its plan for the special services on July 17th. In the morning there will be a large Sunday school. The adult section will be in charge of Mr. Craig and the Juniors in care of a worker from Calgary. At 2:00 p.m. the service will be addressed by President Wood, who is himself an accredited preacher of a well-known Protestant denomination. Arrangements are also being made for a service at 4:00 p.m. in charge of the Roman Catholic Church. At 7:30 p.m. the closing service will be held when it is hoped that Capt. Bob Pearson, M.L.A., will address the young people. Special solos and choruses will be rendered by the members of the locals and visitors will be present from the whole Huxley to Grainger district.
